

PROHIMA

YOUR TRUSTED PARTNER

SINCE 1982

**SINGLE DOSE PACKAGING
FOR THE COSMETICS,
PHARMACY,
PARAPHARMACY AND
PERFUMERY INDUSTRIES.**

Prohima

We are the leading company in single-dose packaging in third parties. We are characterized by the **background, quality, technology, capacity** and **sustainability**.

+ 43

YEARS OF BEING

WE ARE **FLEXIBILITY**

A team that works **at measure** each project.

NO SECRETS

Our **transparency** identifies us.

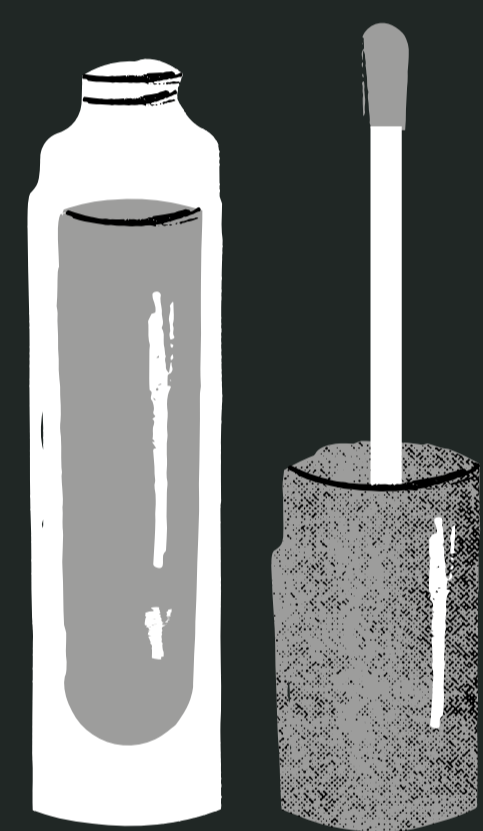

SINGLE DOSE IS OUR SPECIALITY

These are some of our formats.

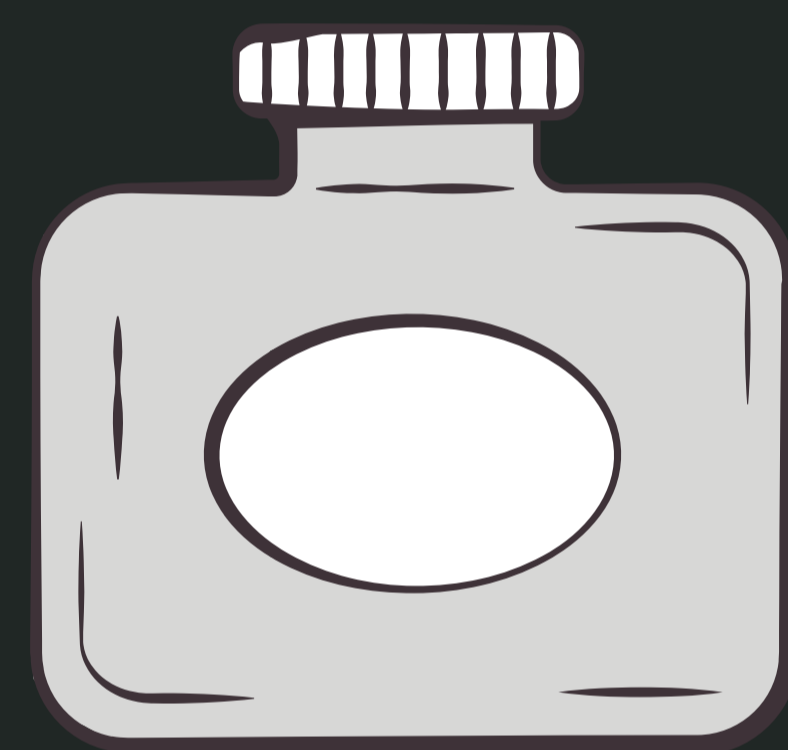

We do not develop or market our own products.

WE ONLY PACK FOR THESE MARKETS

COSMETIC

PERFUMERY

PHARMACY

PARAPHARMACY

A **SIMPLE** and **POWERFUL** service.

We tell you what we do:

SACHET PACKED

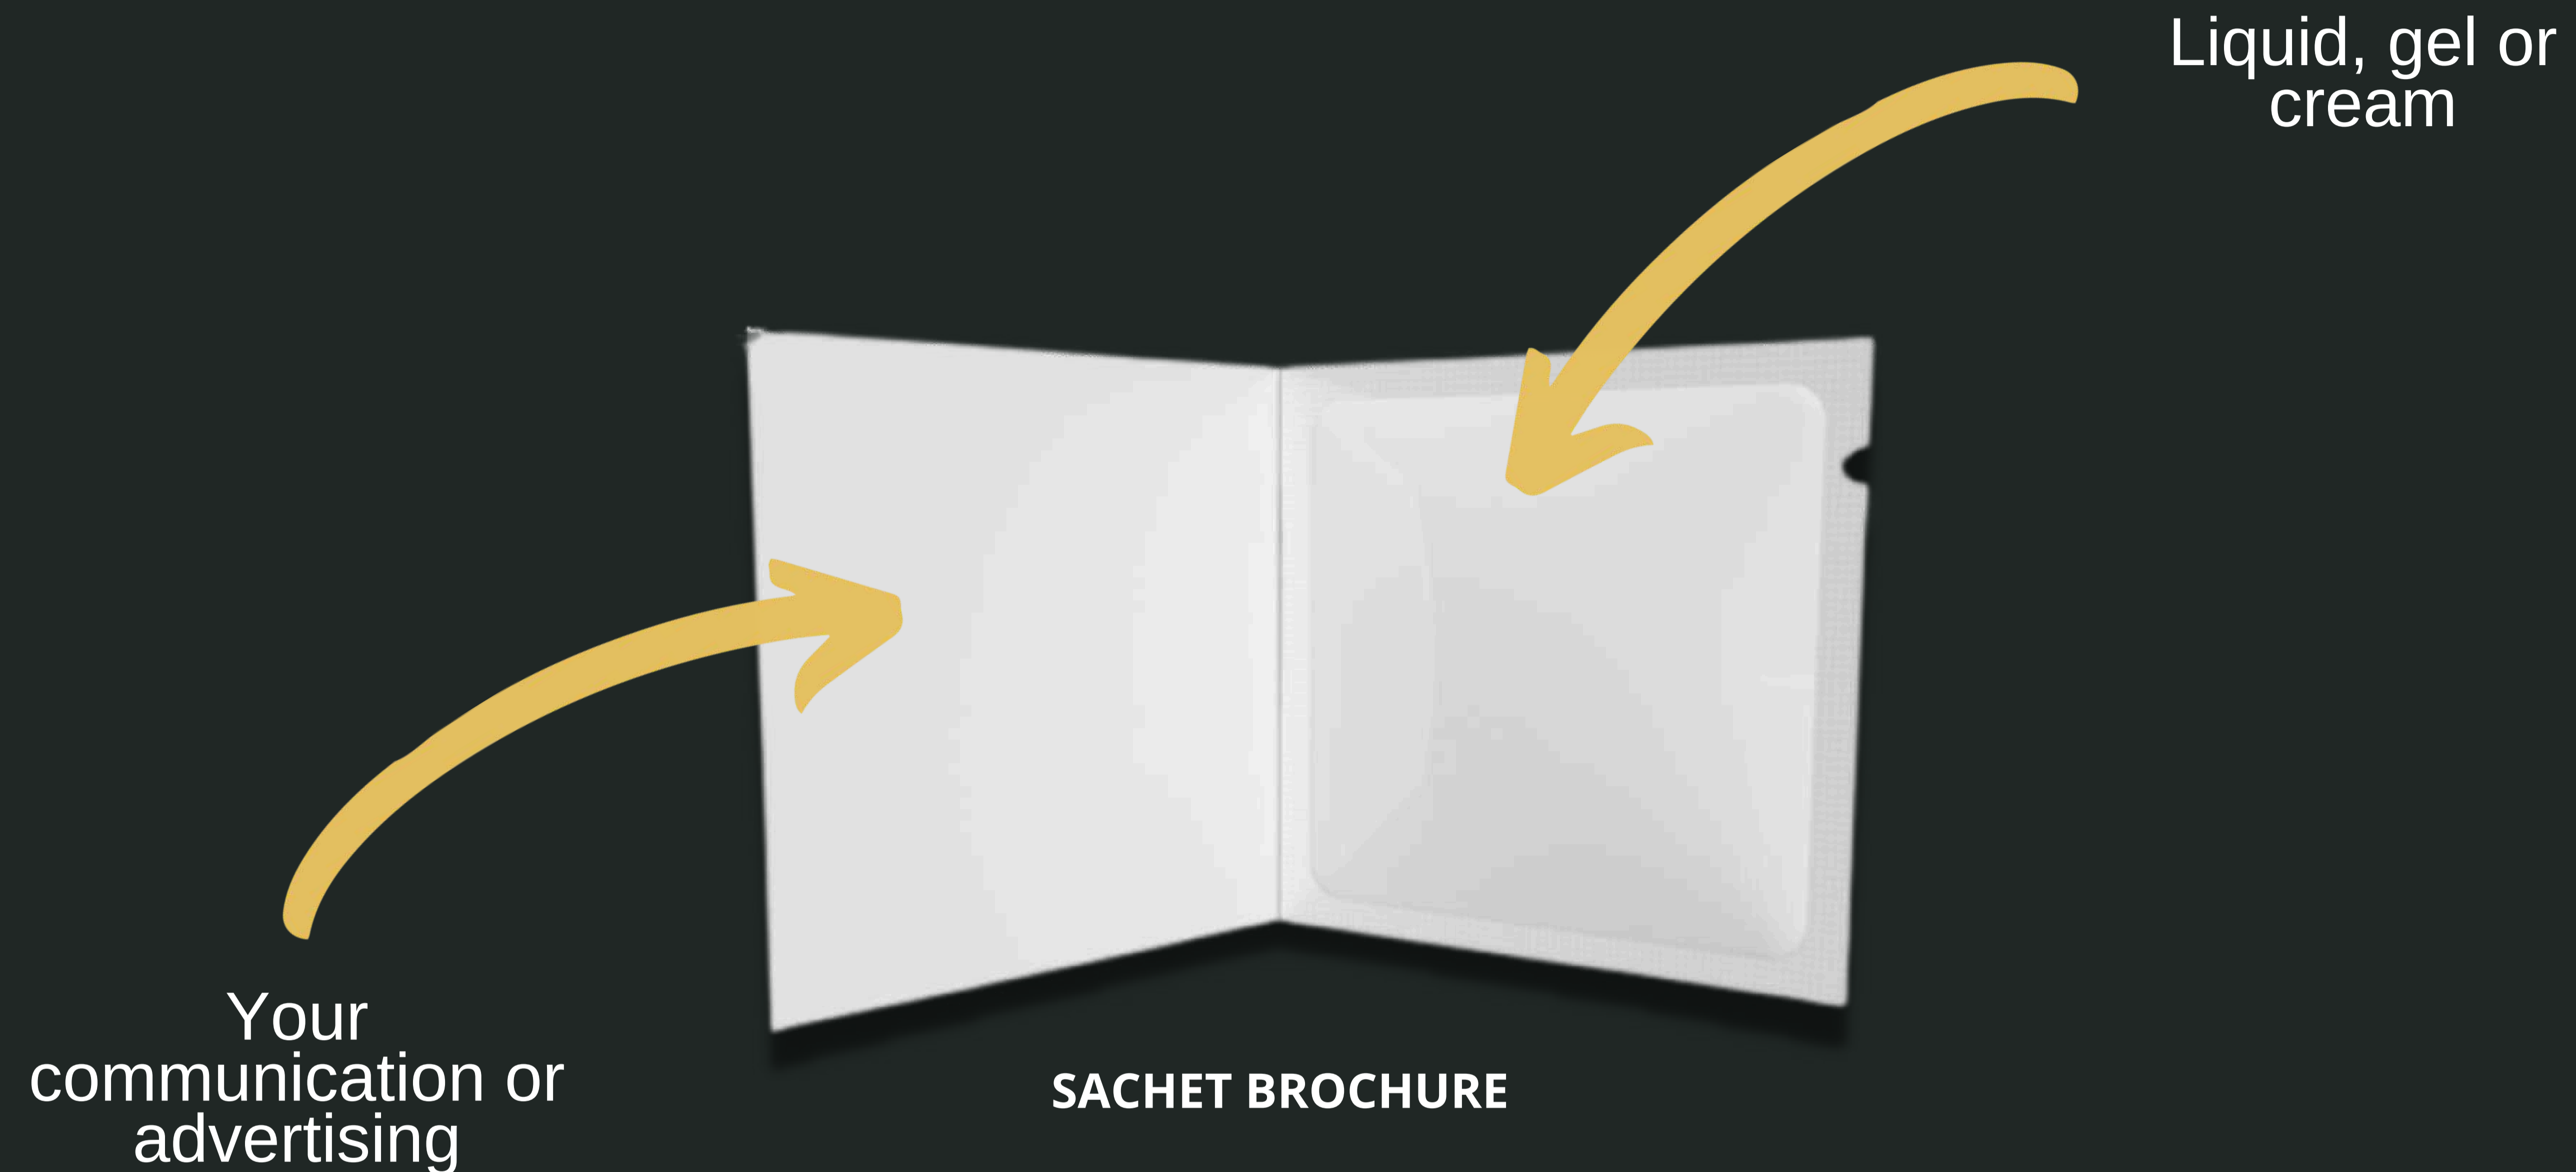

The single-dose sachet is **our specialty**. It is a type of container that allows you to bring the product to the consumer as a free sample or as a sales container.

MARKETING COPACKER GROUP

MCG is our strategic business unit oriented towards the **copacking solution** in the world of single-dose doses.

We take care of the development and comprehensive packaging of any project aimed at single-use packaging.

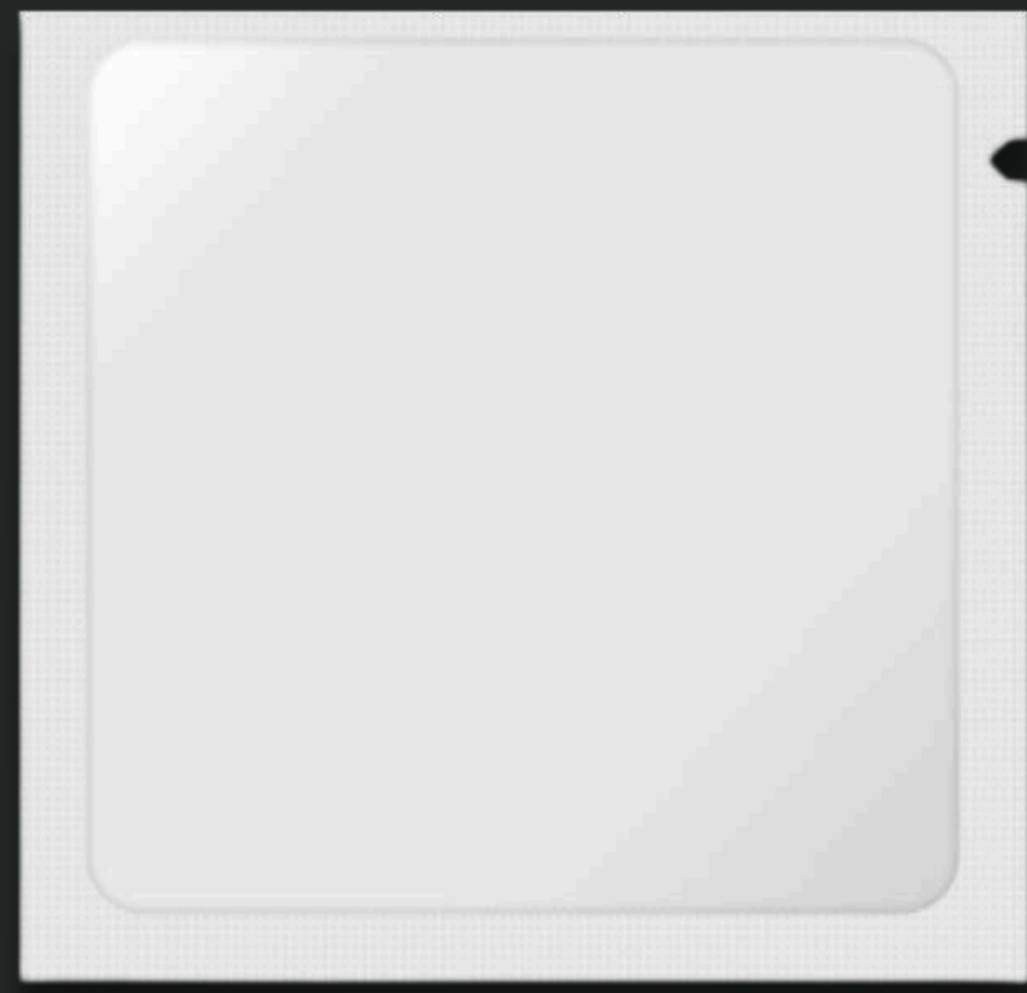

MONODOSE SACHETS

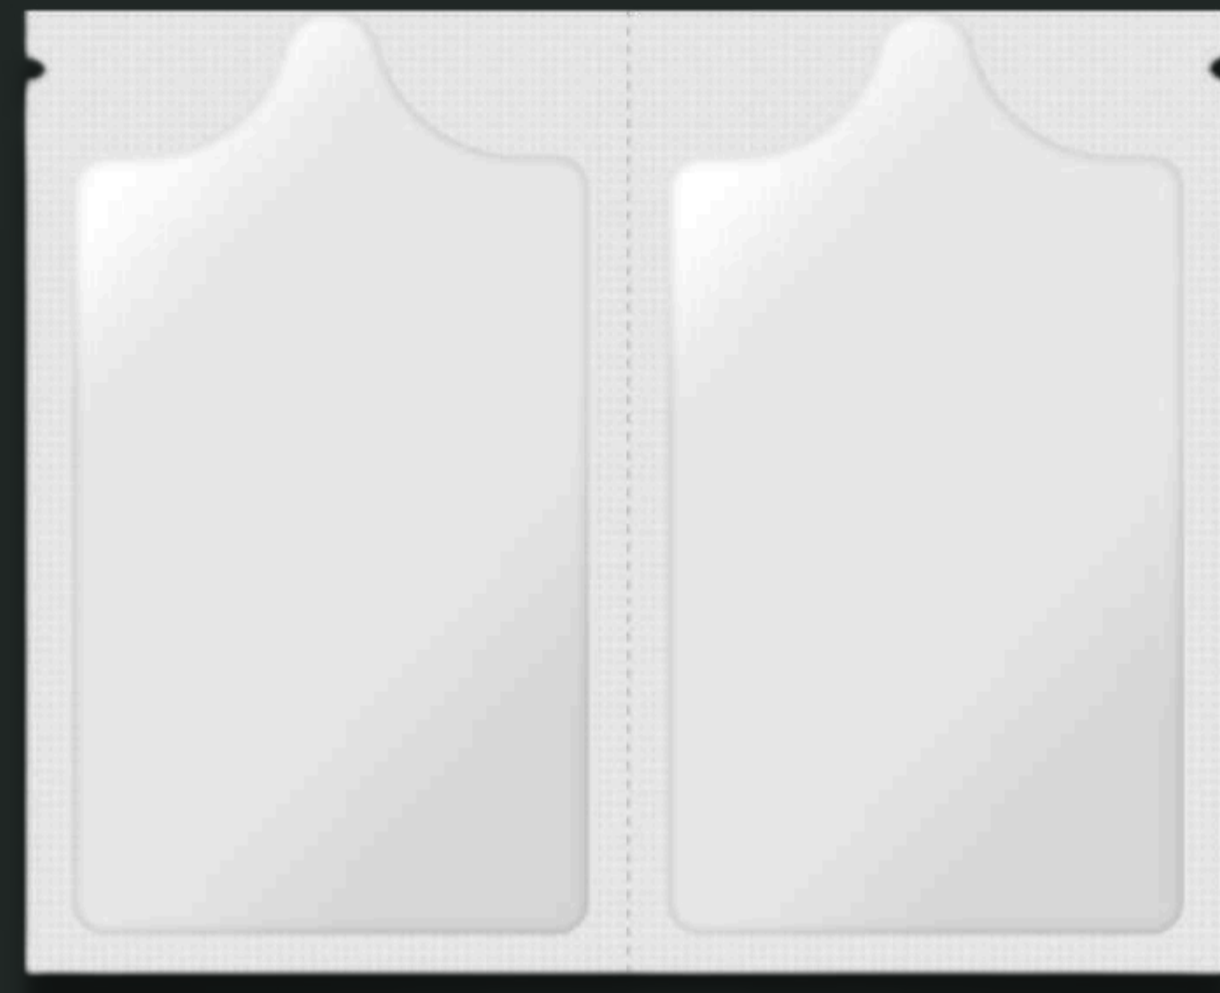

We have many types of formats.

Our portfolio of formats is infinite, it is absolutely customizable and tailored to each of our clients. **YES**, that format you are thinking about we also do.

Our **NETWORK**

PROCESS

PHASE 0

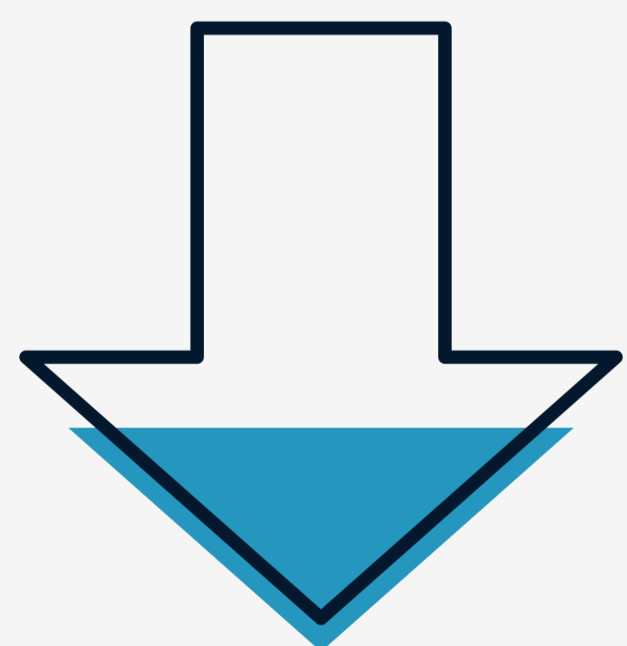

The process begins when a client shares their project with us, and together with the Commercial department we make sure to advise them on the best single-dose format.

Each project is worked on individually to ensure its maximum **potential**.

PHASE 1

At *Prohima* we receive **semi-finished** products from our clients. We order the material or the customer himself supplies us with the adjacent materials. We take care of the **packaging** and ensure the **quality** of the product in all its phases and, if necessary, we manipulate the product with secondary materials to deliver it as agreed.

PHASE 2

Finally, we follow the **safety** standards to guarantee its successful launch on the market. The customer will receive a packaging of the highest quality that will allow him to multiply its **impact** on the market.

QUALITY OUR MAIN PRIDE AND OUR STRONGEST COMMITMENT.

A value that distinguishes us

Our quality control and technical management department is close to the best professionals in the sector.

The **OBJECTIVE** of the department is to guarantee the highest quality and packaging safety in each project.

CERTIFICATIONS

At Prohima we have the **Certificate of Compliance with Good Manufacturing Practices for Cosmetic Products**. All our processes and procedures are accredited and regulated by organizations that guarantee the highest standards of quality and excellence.

ISO 9001: 2015: It certifies that we are working under a quality management system that allows us to satisfy our clients in an optimal and effective way.

CERTIFICATIONS

ISO 22716: 2007: Accredits good manufacturing practices in cosmetic products and compliance with the guidelines for their correct packaging.

ISO 13485: This standard delineates requirements for quality management systems in the manufacturing of medical devices. Its purpose is to ensure that products conform to established quality standards, encompassing aspects such as design, development, traceability, and risk management.

AUTHORIZATIONS

We have authorizations from the **Spanish Agency for Medicines and Health Products** for the Storage, Conditioning, Packaging and Labeling of Cosmetics, Personal Care Products, Antiseptics for intact skin and Insect repellent.

Contact us to request our authorizations and certifications at prohima@prohima.es

“ Our customers are the heart of our success and our reputation, the result of doing what we do best: taking care of your products and providing you with the best service. We maintain our commitment to the pursuit of excellence, from the first contact with our customer to the consumer’s experience of use ”.

VICTORIA NÚÑEZ
CEO

“Quality is understood as the fulfillment of the highest standards of satisfaction of our customers, controlling all the stages of the process, from the reception of the materials and bulks that are entrusted to us, until the final delivery to the customer ”.

VANESSA ROCA
TECHNICAL DIRECTOR

CLEAN ROOMS

We have **9 CLEAN ROOMS** that have an **ISO 8** classification for packaging cosmetic, sanitary products, antiseptics for human use for intact skin, insect repellants for human use and personal care products.

Our facilities have been classified as one of the most modern **in all of Europe.**

Know our **Quality politics**

FACILITIES

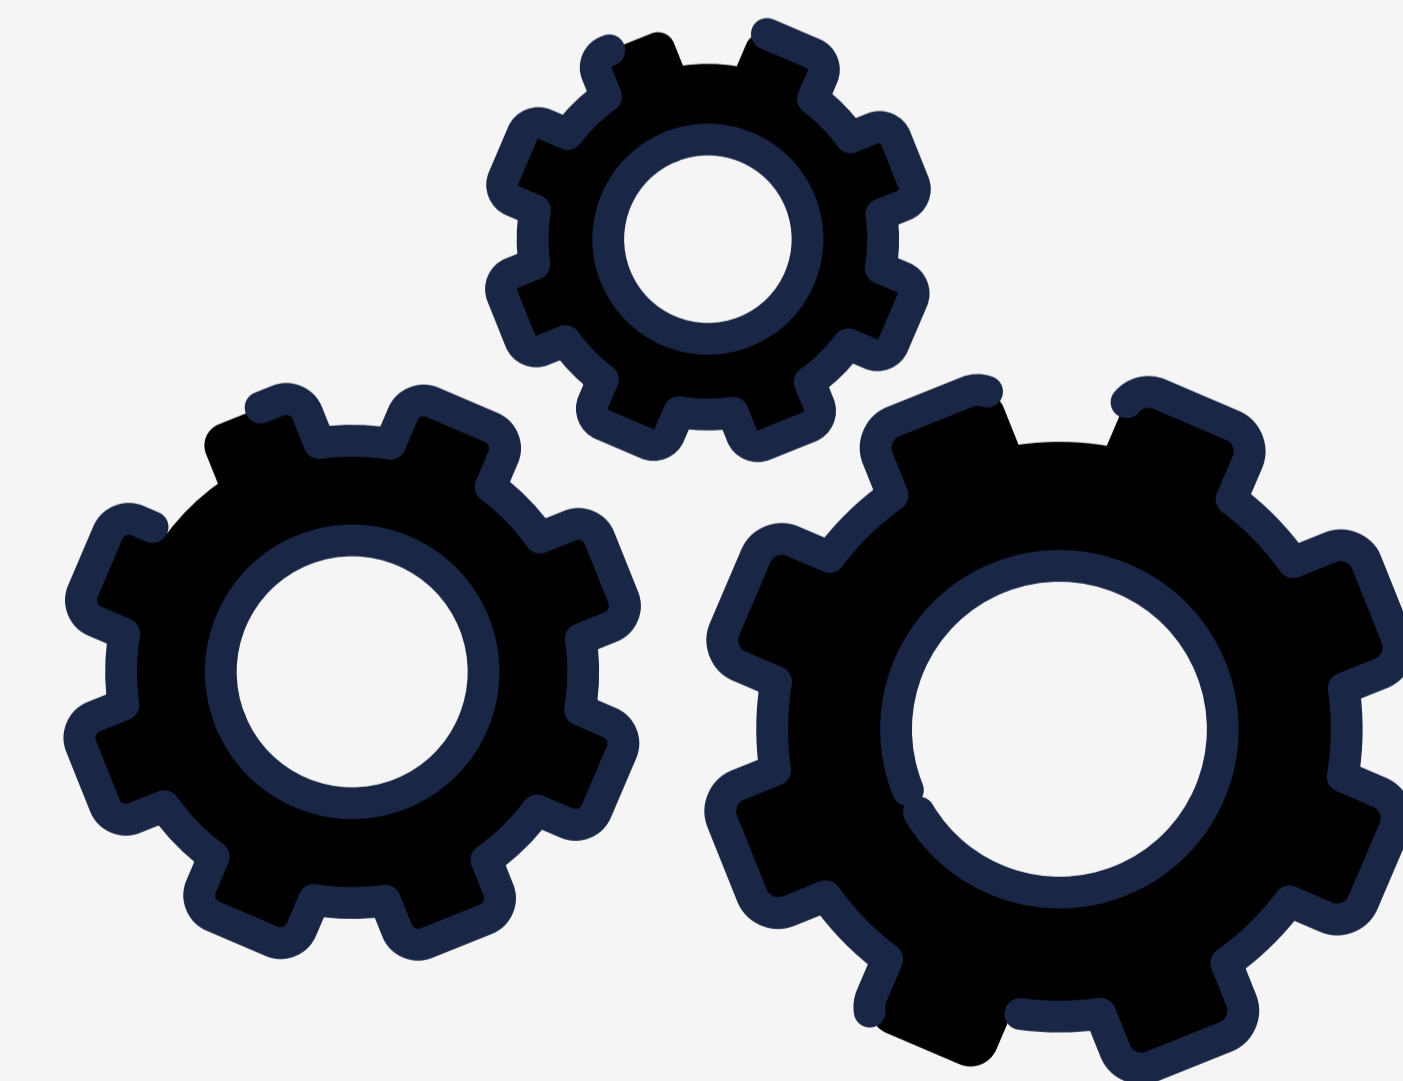

3000 m2

of **production capacity** that together with the latest technology results in absolute control of the processes.

prohima.es

Our facilities have everything you need: a sample library, **3 office rooms**, a **handling room**, and a **warehouse** with temperature control.

SUSTAINABILITY

**Ecological awareness
leads the way.**

A new reality is breaking through and we
are ready.

We work with recyclable, recycled,
compostable or biodegradable materials.

All your packaging **100% committed** to
the environment.

Prohima, your trusted partner.
